

# Silent Auction

## *Important information about the Silent Auction:*

The Silent Auction will begin at 6:00pm on Saturday, November 15. All Silent Auction items will close at 7:30pm.

Each item has an assigned number and a corresponding bid sheet. To enter a bid on a Silent Auction item, bidders should write their bid number next to the predetermined amount listed on the bid sheet. The opening bid on each item must be at least the minimum price listed. Each subsequent raise must follow the increment listed. Any bids not adhering to this format will be declared invalid and voided. If a name is crossed out, that bid will be considered null. Please print clearly!

Certain auction items will have a "BUY IT NOW" option. For designated "Buy It Now" items, bidders will have a special opportunity to purchase the item right away, at a premium price, by writing their bid number in the "Buy It Now" box on the bid sheet at the auction.

Other than a "BUY IT NOW" option, there is no Upper Limits on your bids! If the bid sheet is full, another one will soon be printed with higher bid options. If time is short, staggering bids on the bottom of the sheet is legal, as long as each raise follows the increment listed.

Under no circumstances may the bid sheet be removed from the table. All bids must be made in whole dollar amounts. The highest bid constitutes the winning bid. Once the silent auction is declared closed, the last bid entered on the bid sheet that adheres to the designated increment shall constitute the winning bid and highlighted. In the event two bidders are vying for the final bid at closing time, the Auction Committee will hand each bidder a slip of paper on which each bidder clearly writes their highest bid amount.
